

CASTLEKNOCK  
HOTEL

# Hybrid Events at Castleknock Hotel

---

Castleknock Hotel boasts modern conference and events facilities all with natural daylight, air-conditioning and complimentary parking along with electric car charging points.

We understand the importance of precise efficiency and sharp technology, as we provide the perfect, undisturbed meeting space. Our recently renovated Boardroom and The Thinking Factory can now host Hybrid Events ideal for virtual and in-person strategic meetings or team building. A Hybrid Event allows a face-to-face meeting while also streaming to a larger audience that can participate from a different location.

# Hybrid Events at Castleknock Hotel
